Here is the document I have so far with place holders for the items that were added today. Please take a look and let me know if you see anything missing or think it should be formatted a different way. Gerard – can you work on the draft agenda around this? I'd like Air to go last, hence why I've set up the paper this way.

Thanks

D

Does this work for you? Ayn says that they can get theirs done by noon tomorrow. I am not sure about the OPRA topics. I have not been able to connect with Sarah.

Shaun is off tomorrow so will be taking his briefing binder home today. If a whole revised pkg will not be available by 5p today, then emailing updates tomorrow would work.

Hi Betsy -

FYI – we just got issues in from UT and we are figuring out how best to manage. I have a call in to Darcy.

Melanie

Hi Everyone -

Just in – UT topics for midyear. How should we proceed on getting any sort of write up given the lateness of the state topics? I am ccing the PD's and sup. who may be impacted from this list of topics to the best of my knowledge. Feel free to forward if I missed someone.

The paper was due to the RA by noon today, but since these just came in I would propose that we give people until noon on Friday to pull a quick paragraph together if possible.

Does this seem reasonable? Our other option would be to bring the new papers to the briefing on Monday. Thoughts?

Thanks,

Melanie

Melanie –

The topics below from UDEQ for the midyear arrived this morning. Renette was not authorized to share these until today and they had been in the UDEQ internal review process for a while.

Hi Gerard -

Apologies for the delay in getting this to you. It's been crazy busy over here.

Let me know if you have questions. I am attending Local Health meetings today but am available by e-mail.

Renette
